
Over the Ocean
Inspired by the breathtaking view from above,
the Over the Ocean collection captures the subtle,
shifting beauty of water's surface.

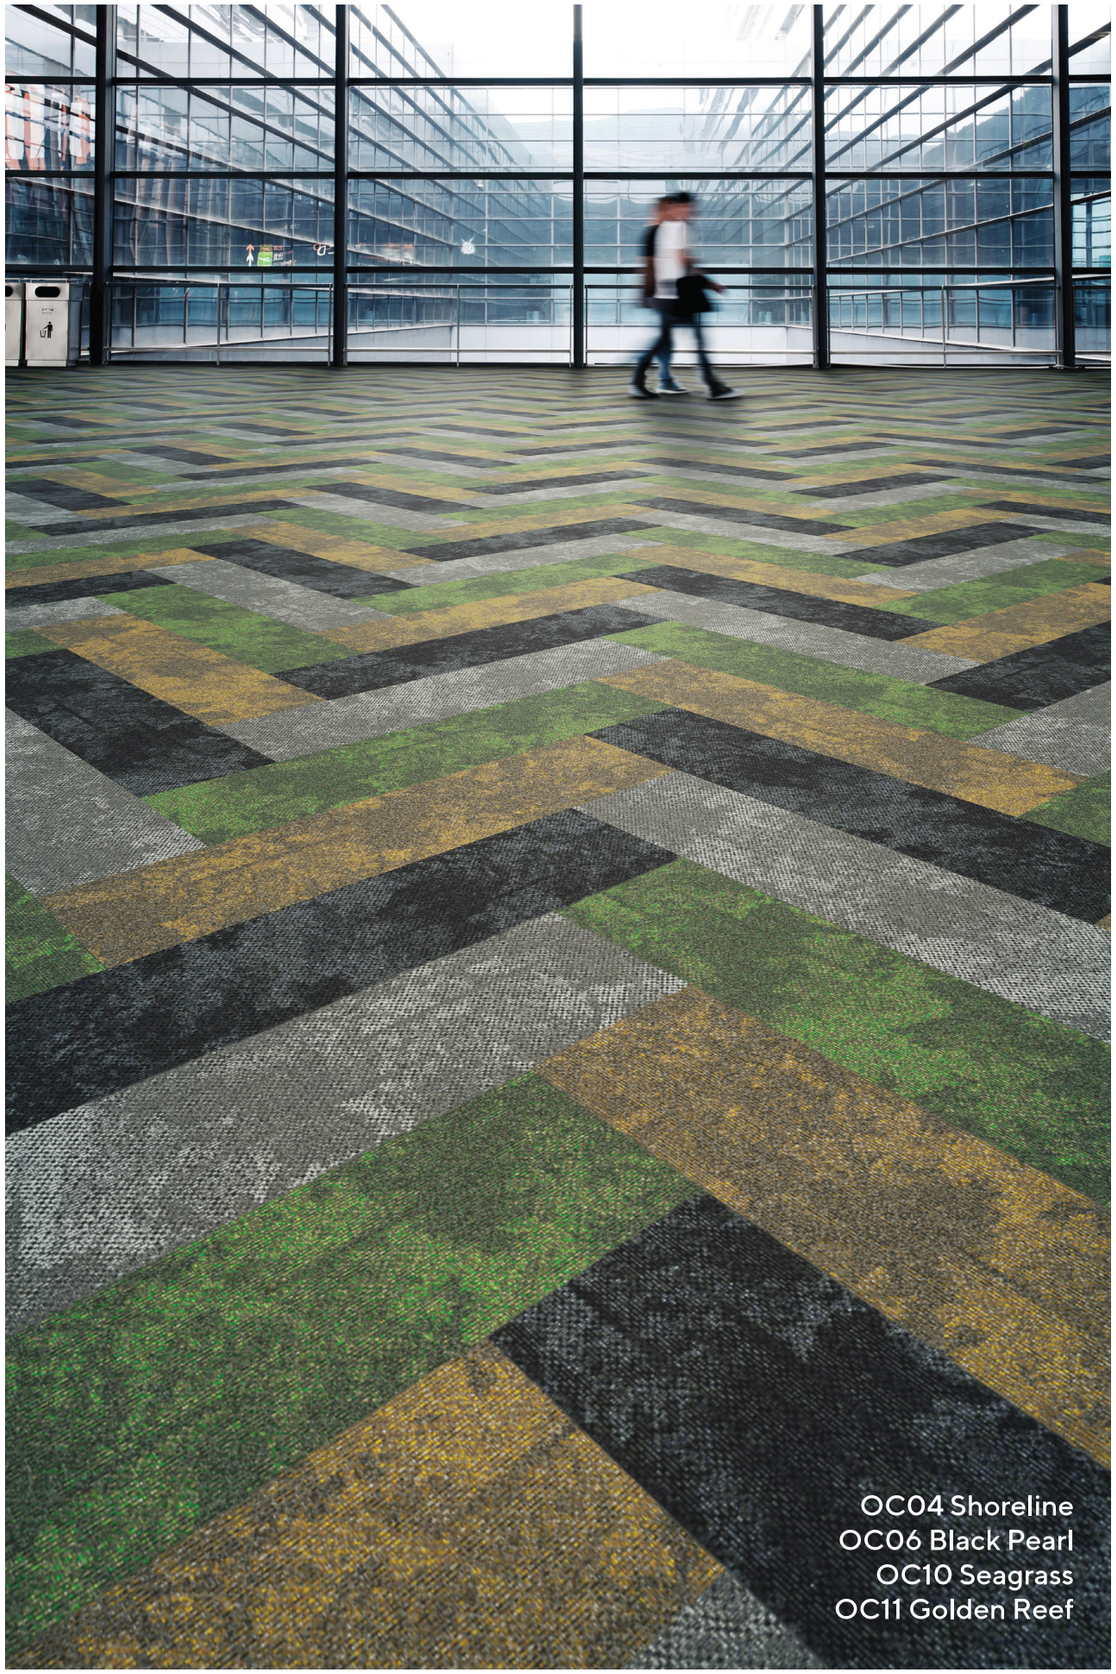
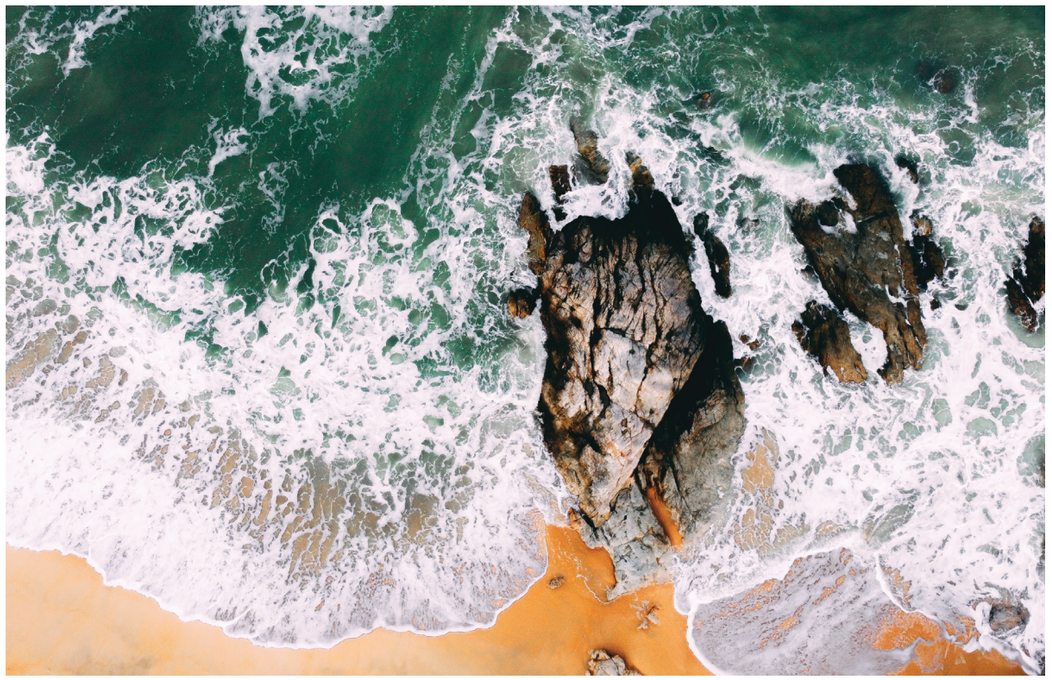
Over the Ocean

From the air, the ocean reveals its true character: the swirling dance of deep-sea currents and the mesmerizing flicker of sunlight reflecting on the waves.

This collection translates that powerful, yet peaceful,movement into a sophisticated textile pattern. The nuanced, flowing design offers a calming, expansive feel, creating a sense of natural flow and connectivity in any space. It's a floor that doesn't just hold the room—it gives it a pulse.





The Mindclick Difference: Highest Leader Score

Sustainability isn't a trend; it's our standard. The Over the Ocean collection has been awarded the Leader highest rating score by Mindclick, a third-party organization that rigorously evaluates the environmental and social impacts of commercial furnishings. This rating confirms our commitment to creating high-quality, beautiful products that contribute to healthier indoor spaces and a greener planet.

From the Surface to the Substrate: Inspired by the Ocean

The tile's subtle movement acts as a visual unifier, perfect for open-plan corporate offices and agile workspaces. Its robust construction ensures superior performance under heavy foot traffic.
